## Teacher Training Programs

### 361° Educator Vision

Governments, policy makers, academicians - all are sensing a ground shift with the respect to the way learning needs to be imparted at schools. The school education scenario is undergoing tectonic shifts. The 'school teacher' is central to all these shifts. It is the teacher who has the power and responsibility to execute on-the-ground all the grand plans of a government or policy makers or academicians. Teachers themselves are undergoing tremendous changes viz. - transition from teacher role to facilitator role, from teacher-led to learner-focused approach, among tremendous challenges like lack of training, other more attractive and lucrative careers, over load due to shortage of teachers, competitive atmosphere, and peer pressure. These are indeed challenging times. The school teacher needs support from all quarters.

361° Educator envisions to help global school teachers in these ways -

#### Strengthening the Self

For example, understanding a teacher's role, building self awareness, personality development

#### Strengthening the Conceptual Framework

For example, understanding a teacher's role, understanding the child, understanding how children learn

#### Developing and Honing of Classroom Effectiveness Skills

For example, making observations, listening, encouraging inquiry / questioning, promoting discovery, showing empathy, counseling, class management skills

#### Developing and Honing of Classroom Execution Skills

For example, storytelling, conducting group activities, using technology, communication, project teaching, reading and writing skills

#### Developing and Honing of Classroom Efficiency Skills

For example, curriculum understanding, syllabus planning, lesson planning, assessment planning, scheduling, micro-scheduling

#### Developing and Honing of Classroom Creativity skills

For example, making stories, using teaching aids, group activities, integrating field visits, drama, theme based lessons, rhymes, songs, dance, and story boards

## Teacher Training Programs

### Harnessing i-meta

Emerging technologies have enabled large scale access to education like never before. Internet, i-pods, mobile phones, television - every medium is ready to take education to anyone who wants to reach it. Access is achieved, thanks to technology. But, the core issue in remote learning cannot be solved with technology alone. Just digitizing written material or using technology to play recorded conventional classes or handing over programmed lessons in CDs, are not enduring methods

of scaled education. Without effectiveness, any system is bound to fail. Technology is just an enabler, a carrier.

### How are we achieving High Excellence?

#### We understand the science of learning

Learning is not an event but a process. It involves steps like building awareness, acquiring knowledge, and understanding, applying, refining by trials, and making creative extensions. For imparting learning on this spectrum, our learning programs are designed along scientific principles by learning experts.

There are different kinds of learning goals, different learner profiles, and different contexts. Accordingly, our programs adopt different learning dynamics, processes, rigors, treatments, and human interventions. We understand all these differences and know how to deal with them, and hence we are able to deliver excellence.

#### We understand the intricacies of remote learning

Critical factors of remote learning - learning effectiveness, learner motivation and drive, human guidance by observers and E-Coaches, interactive learning with peers, performance tracking, benchmarking and feedback, learning transference (retention and application) - need to be scientifically addressed. Else the more you scale, the more you lose out on excellence. We understand both scale and excellence in remote learning.

We achieve excellence by following our Adult Learning Guide and Remote Learning Manual for designing and delivering our learning programs

### How are we achieving Large Scale Access?

We achieve scale through our own delivery platform called i-meta. I-Meta is our state-of-the-art, unprecedented proprietary technology that has an intuitive and flexible interface. It seamlessly delivers our innovative and inventive programs across any scale with a variety of human interventions as desired. Thousands of learners together can undergo sessions, live learning, expert interactions, group interactions, observer interaction, variety of assessments, coursework, customized knowledge resources, schedule call with experts and so on.

## Contact Us

If you require more information on any of our programs or have a specific question, request or concern, please contact us and we would be happy to respond. **Call us** at +91 91766 79710 or **Email us** at [post@361dm.com](mailto:post@361dm.com)

Registered and Postal Communication Address:

**361 Degree Minds Consulting Pvt Ltd**  
13, 1<sup>st</sup> Floor, 4<sup>th</sup> Street, Railway Colony,  
Aminjikarai, Chennai – 600029
